

All of a sudden everything's different?

Art!Week for Kids and Adolescents

18.6. – 26.6.2022, Stendal

The Art!Week in Stendal "Plötzlich alles anders?" („All of a sudden everything's different?") is aimed primarily at children and young people, but also at their families and those who work with children and young people. Workshops, readings and theater plays deal with the question of what can suddenly make one's own world, but also everyone's world, different.

These events can trip us up and make us think: What was it like before, what is it like now? Art!week offers the opportunity to hear about it, talk about it, write about it, fantasize about it, draw about it, paint about it, see theater about it, and even make it yourself!

Admission to the events is free of charge.

detailed information . . .

. . . about the workshop:

What would it be like if we were allowed to write the script of our lives ourselves? Or what would it be if we would have to do that? Would we know what's good for us? And wouldn't it be boring to know exactly what's in store for us? If only we could at least conjure up peace! In the workshop we tell each other about experiences we made, about changes in our lives, about lived adventures and wild dreams.

Everyone writes and/or paints their own little story. Stories of ordinary or almost unbelievable experiences, of the everyday or the fantastic. Maybe there are time travel machines or magic pills in the stories or it's just all about two good friends.
