

Checklist Registration Colloquium

MA Water Engineering

Phase 1

Colloquium is only permitted if all examinations have been passed and the thesis has been graded at least 4 .

Components of the colloquium are a short presentation, followed by a discussion and a poster on the results of the thesis (in printed form or as a PDF file.)

Phase 2

Admission will be granted by the examination board on the registration form (submission post box, collection after email information in the secretary's office).

Publication of the colloquium takes place after the date has been fixed with the entire examination committee. The secretary's office will allocate the room and post the routing slip.
Publication must take place at least 7 days before the colloquium. You should therefore allow sufficient time to obtain signatures.

Registration Colloquium
