

Seventh meeting of the doctoral committee

Doctoral Center Social, Health and Economic Sciences

November 11, 2022

## Regulation

### "Internationally recognized journals - Journal Rankings"

The doctoral committee decides:

For a cumulative doctorate, our doctoral degree regulations require that publications have been published or accepted for publication in peer-reviewed, internationally recognized journals.

The doctoral committee decides that all scientific journals published in the

- Scientific Citation Index Expanded (<https://clarivate.com/webofsciencegroup/solutions/webofscience-scie/>),
- or in the Social Sciences Citation Index (<https://clarivate.com/webofsciencegroup/solutions/webofscience-ssci/>)
- or listed in the CiteScore (<https://www.scopus.com/sources.uri>) are consistently rated as internationally recognized.

Journals that are not listed in the above indices, but that demonstrably map other relevant parameters to qualify for status as a peer-reviewed, internationally recognized journal for the purpose of conducting cumulative doctoral research, must be approved by the doctoral committee.

#### Reason for the decision:

Doctoral degree regulations §2, par. 3: "Upon presentation of at least three outstanding scientific papers, of which the candidate has made the major scientific contribution in at least two (usually as first author), and which have been published or accepted for publication in peer-reviewed, internationally recognized journals, the dissertation may be prepared as a cumulative dissertation upon proposal of the supervisor."

[Subsequent addition]

### Instructions for using the indices/ rankings

#### Science Citation Index Expanded and Social Sciences Citation Index

1. Go to: <https://mjl.clarivate.com/home>
2. Click on "Search Journals". You can leave the search bar blank.

## Browse, search, and explore journals indexed in the Web of Science

The Master Journal List is an invaluable tool to help you to find the right journal for your needs across multiple indices hosted on the Web of Science platform. Spanning all disciplines and regions, Web of Science Core Collection is at the heart of the Web of Science platform. Curated with care by an expert team of in-house editors, Web of Science Core Collection includes only journals that demonstrate high levels of editorial rigor and best practice. As well as the Web of Science Core Collection, you can search across the following specialty collections: Biological Abstracts, BIOSIS Previews, Zoological Record, and Current Contents Connect, as well as the Chemical Information products.

Search Journal, ISSN or title word... Search Journals

Already have a manuscript? Match Manuscript

Find relevant, reputable journals for potential publication of your research based on an analysis of tens of millions of citation connections in Web of Science Core Collection using Manuscript Matcher.

3. Select "Web of Science Coverage" under "Filters" on the left.

4. Under "Core Collection", select the two indices.

The screenshot shows a search interface for journals. On the left, there is a 'Filters' sidebar under 'Web of Science Coverage'. The 'Core Collection' section is highlighted with a red circle and contains two checked items: 'Science Citation Index Expanded (SCIE)' and 'Social Sciences Citation Index (SSCI)'. Other filters include 'Arts & Humanities Citation Index (AHCI)', 'Emerging Sources Citation Index (ESCI)', and 'Current Contents' with sub-categories like 'Agriculture, Biology & Environmental Sciences' and 'Arts & Humanities'. At the top, there is a 'Find a Match' button. The main area shows 'Active Filters' for SCIE and SSCI, 'Search Results' for '2D MATERIALS', and a 'Found 12,402 results (Page 1)' notification. The journal details for '2D MATERIALS' are displayed, including the publisher 'IOP PUBLISHING LTD, TEMPLE CIRCUS, TEMPLE WAY, BRISTOL, ENGLAND, BS1 6BE', ISSN/eISSN '2053-1583', and 'Web of Science Core Collection: Science Citation Index Expanded'. There are also links for 'Share This Journal' and 'View profile page'.

5. After that you can use other filters, e.g. "Language" "English". You can also sort the journals alphabetically in the upper right corner.

6. If you use the search bar, it is best to enter the search terms in English.

7. Since the indexes update, we recommend documenting with a screenshot that your journal was in the index at the time of submission.

4. ... or you can search for a specific journal title.

The screenshot shows the Scopus Preview search interface. At the top left is the Scopus logo and 'Preview' text. At the top right is an 'Author Search' link. The main heading is 'Sources'. Below it is a search bar with a dropdown menu open, showing options: 'Title', 'Subject area', 'Title', 'Publisher', and 'ISSN'. The 'Title' option is selected and circled in red. To the right of the dropdown is a text input field containing 'Enter title', also circled in red. A blue 'Find sources' button is to the right of the input field. Below the search bar is a text block explaining CiteScore methodology updates. On the left side, there are filter and display options: 'Filter refine list' with 'Apply' and 'Clear filters' buttons; 'Display options' with a dropdown arrow; and checkboxes for 'Display only Open Access journals', 'Counts for 4-year timeframe', and 'No minimum selected' (which is selected). On the right side, the search results are displayed as a table with 40,878 results. The table has columns for 'Source title', 'CiteScore', 'Highest percentile', and 'Citations 2018-21'. The first result is 'Ca-A Cancer Journal for Clinicians' with a CiteScore of 716.2, a highest percentile of 99% (1/360 in Oncology), and 76,632 citations. There are also links for 'Export to Excel', 'Save to source list', and 'Download Scopus Source List'.
